

Te Puna Ako: Centre for Tertiary Teaching and Learning

For Students

Collaborate with students academically (undergraduate or postgraduate) with assignments, improve their study skills from writing, to math, to English language. Student Learning tutors can critique, review and encourage to achieve higher grades, maintain scholarships or understand a task.

“I was a bit skeptical about going to Student Learning at first and getting help but it was AMAZING. It really has helped me become more motivated and relaxed about uni and I have my yearly planner on my wall with all my assignments lined up, and with the weekly planner, I have my lectures, tutorials and work schedule on there so I know where I can make time for my studies, family and fun”.

Izrael Fitisemanu (Third year) Bachelor Business; Major Strategic Management: Minor; Project Management

I have really enjoyed having regular contact sessions with Student Learning and they have helped me with my procrastination and the habit of leaving things to the last minute. The regular chats have kept me focused on what is needed but also building a regular routine and working on specific parts of assignments and assessment has been a game changer for me.

Leiloa Niko (Third Year) Bachelor Management (Hons)

“The team at Student Learning (Te Puna Ako) have been a huge help to me during my time at Uni. They have helped me with writing essays, giving me advice about how to obtain information but especially when I have had problems with my computer and I have had plenty, They were fantastic. The team at Student Learning have been so friendly and helpful and I cannot thank them

!”

” I am a regular visitor to the Student Learning Centre as I am a second language student. I ask for help with the essay structure, references, grammar and even some reading skills or sentence comprehension. Everyone at Student Learning are all nice and provide such professional guidance; they help me a lot to improve my English academic skills and build my confidence to deal with my linguistic difficulties. I have always appreciated them”.

***Vivienne (Yuxian) Yan: 2020 - 2022
Bachelor Science Honours Psychology***

“I am an international student and I come from China and I'm not very confident in my English writing, grammar, sentence structure and I am not clear about punctuation in English writing. The people in Student Learning were very professional, friendly, and patient with me. The staff usually revise my grammar, words, tenses and check my essays every semester. Thanks for their help, I feel it was very useful”.

Linzi Miao (International Chinese student) BA with Honours in Philosophy (2018-2020); MSC in Social Science in Philosophy (2021 - 2022)

"I just wanted to thank you for meeting with me and helping me to start structuring my essay and understanding the APA referencing system. Having been out working for the last 6 years and now deciding to come back to university, I was really nervous and anxious about this and it has been tough to start. I really appreciate the time and the support offered in helping me feel comfortable with asking for help and utilising the resources that are available to me. Thank you so much for everything".

***Claudia Yean (Second Year) Cambodian heritage;
Bachelor Science; Major Ecology and Biodiversity;
Minor Te Reo Māori***

Just an update on how things went with my Case Opinion for the Legal 103 paper I submitted to Te Puan Ako, with barely any time to the deadline. I took the feedback on board, and was able to secure a 90% mark. The feedback was concise and linked the marking criteria to the aims of the assignment. This allowed me to clarify my ideas and work positively towards completing my assignment so I am very appreciative and grateful for the help and guidance of the staff at Te Puna Ako.
